Summary of Risk Factors

Risk Indicator

Under the packaged retail and insurance-based investment products (PRIIPs) Regulation, we have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions could impact our capacity to pay you. There is no specific recommended holding period for the product. The actual risk can vary significantly, and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts how much you get back. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. Complete information on the risks of investing in BXPE are set out in the Prospectus.

BXPE is an investment program designed to offer eligible individual investors access to Blackstone's private equity platform (the "PE Platform"). BXPE will seek to meet its investment objectives by investing primarily in privately negotiated, equity-oriented investments leveraging the talent and investment capabilities of Blackstone's PE Platform to create an attractive portfolio of alternative investments diversified across geographies and sectors. Investing in our Shares involves a high degree of risk. If we are unable to effectively manage the impact of these risks, we may not meet our investment objectives and, therefore, you should purchase our Shares only if you can afford a complete loss of your investment. You should carefully review the Prospectus for a description of the risks associated with an investment in BXPE. These risks include, but are not limited to, the following:

- Although the investment professionals of Blackstone have extensive investment experience generally, including extensive experience operating and investing for the PE Platform, BXPE has only recently commenced operations and has limited operating history. We cannot provide assurance that Blackstone will be able to successfully implement BXPE's investment strategy, or that investments made by BXPE will generate expected returns.
- This is a "blind pool" offering and thus you will not have the opportunity to evaluate our future investments before we make them.
- We do not intend to list our Shares on any securities exchange, and we do not expect a secondary market in our Shares to develop.

- We have implemented a periodic redemption program, but there is no guarantee we will be able to make such redemptions and if we do only a limited number of Shares will be eligible for redemption and redemptions will be subject to available liquidity and other significant restrictions. This means that BXPE will be more illiquid than other investment products or portfolios. In addition, there are limits on the ownership and transferability of our Shares. As such, BXPE can be described as illiquid in nature.
- Further, the valuation of BXPE's investments will be difficult, may be based on imperfect information and is subject to inherent uncertainties, and the resulting values may differ from values that would have been determined had a ready market existed for such investments, from values placed on such investments by other investors and from prices at which such investments may ultimately be sold.
- An investment in our Shares is not suitable for you if you need ready access to the money you invest.
- The purchase and redemption price for our Shares will be based on our net asset value ("NAV") and are not based on any public trading market. While there will be independent valuations of our direct investments from time to time, the valuation of private equity investments is inherently subjective, and our NAV may not accurately reflect the actual price at which our investments could be liquidated on any given day.
- The acquisition of our investments may be financed in substantial part by borrowing, which increases our exposure to loss. The use of leverage involves a high degree of financial risk and will increase the exposure of the investments to adverse economic factors.
- The private equity industry generally, and BXPE's investment activities in particular, are affected by general economic and market conditions, such as interest rates, availability and spreads of credit, credit defaults, inflation rates, economic uncertainty, changes in tax, currency control and other applicable laws and regulations, trade barriers, technological developments and national and international political, environmental and socioeconomic circumstances. Identifying, closing and realizing attractive private equity investments that fall within BXPE's investment mandate is highly competitive and involves a high degree of uncertainty.
- BXPE's investments may be concentrated at any time in a limited number of industries, geographies or investments, and, as a consequence, may be more substantially affected by the unfavorable performance of even a single investment as compared to a more diversified portfolio. In any event, diversification is not a guarantee of either a return or protection against loss in declining markets.

BXPE is authorized and supervised by the Luxembourg supervisory authority, the Commission de Surveillance du Secteur Financier (the "CSSF"). Such authorization does not, however, imply approval by any Luxembourg authority of the contents of the Prospectus or of the portfolio of investments held by BXPE. Any representation to the contrary is unauthorized and unlawful.

References to the "Fund" should be read as references to Blackstone Private Equity Strategies Fund SICAV ("BXPE"), Blackstone Private Equity Strategies Fund (Master) FCP ("BXPE Master FCP"), BXPE Aggregator (a subsidiary of BXPE Master FCP established for the purpose of holding BXPE Investments) and their parallel entities, unless otherwise specified or unless the context otherwise requires. References to the "BXPE US" should be read as references to Blackstone Private Equity Strategies Fund L.P. (together with any feeder fund) and references to the "BXPE Fund Program" as references to "BXPE" and "BXPE US". Capitalized terms used but not defined will have the meanings set forth in the prospectus prepared for BXPE (the "Prospectus"). The words "we", "us" and "our" refer to BXPE, together with its consolidated subsidiaries, unless the context requires otherwise. Financial information is approximate and as of December 31, 2024, unless otherwise indicated and may change materially in the future.

Conflicts of Interest. There may be occasions when BXPE's investment manager, and its affiliates will encounter potential conflicts of interest in connection with BXPE's activities including, without limitation, the allocation of investment opportunities, relationships with Blackstone's and its affiliates' investment banking and advisory clients, and the diverse interests of BXPE's investor group. There can be no assurance that Blackstone will identify, mitigate, or resolve all conflicts of interest in a manner that is favorable to BXPE.

Diversification; Potential Lack Thereof. Diversification is not a guarantee of either a return or protection against loss in declining markets. The number of investments which BXPE makes may be limited, which would cause BXPE's investments to be more susceptible to fluctuations in value resulting from adverse economic or business conditions with respect thereto. There is assurance that any of BXPE's investments will perform well or even return capital; if certain investments perform unfavorably, for BXPE to achieve above-average returns, one or a few of its investments must perform very well. There is no assurance that this will be the case. In addition, certain geographic regions and/or industries in which BXPE is heavily invested may be more adversely affected from economic pressures when compared to other geographic regions and/or industries.

Exchange Currency Risk. BXPE is denominated in U.S. dollars (USD). Shareholders holding Shares with a

functional currency other than USD should acknowledge that they are exposed to fluctuations of the USD foreign exchange rate and/or hedging costs, which may lead to variations on the amount to be distributed, and all subscription payments and distributions, as well as returns, will be calculated and reported in the functional currency of the Class. This risk is not considered in the indicator shown above. Currency fluctuations and expenses related to hedging transactions may negatively impact the returns of BXPE as a whole. Each Class of Shares may differ in overall performance, and certain fees (including, but not limited to, the Management Fee, Performance Participation Allocation and AIFM and Administration Fee) will be calculated in the Reference Currency. BXPE will incur expenses in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations.

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that BXPE will be able to locate, consummate and exit investments that satisfy its objectives or realize upon their values or that BXPE will be able to fully invest its available capital. There is no guarantee that investment opportunities will be allocated to BXPE and/or that the activities of Blackstone's other funds will not adversely affect the interests of BXPE.

Lack of Liquidity. There is no current public trading market for the shares, and Blackstone does not expect that such a market will ever develop. Therefore, repurchase of shares by BXPE will likely be the only way for you to dispose of your shares. BXPE expects to offer to repurchase shares at a price equal to the applicable net asset value as of the repurchase date and not based on the price at which you initially purchased your shares. Shares redeemed within two years of the date of issuance will be redeemed at 95% of the applicable net asset value as of the redemption date, unless such deduction is waived by BXPE in its discretion, including without limitation in case of redemptions resulting from death, qualifying disability or divorce. As a result, you may receive less than the price you paid for your shares when you sell them to BXPE pursuant to BXPE's share repurchase program.

The vast majority of BXPE's assets are expected to consist of private equity investments and other investments that cannot generally be readily liquidated without impacting BXPE's ability to realize full value upon their disposition. Therefore, BXPE may not always have a sufficient amount of cash to immediately satisfy redemption requests. As a result, your ability to have your shares redeemed by BXPE may be limited and at times you may not be able to liquidate your investment.

Limited Operating History. BXPE has a limited operating history, and therefore, prospective investors will have a limited track record or operating history upon which they may evaluate its performance. Although Blackstone Private Equity has made investments through certain of its funds and separately managed accounts that would have been within the investment objective of BXPE, BXPE will make investments under different geographic, market, regulatory and economic conditions than those prevalent when the previous investments were made. The size and type of investments to be made by BXPE could differ from prior Blackstone investments. Where provided, as part of the Prospectus or otherwise, the prior investment results of Blackstone Private Equity are provided for illustrative purposes only and not to imply that such results will be obtained in the future. Although Blackstone's investment professionals have considerable prior experience, the past investment performance of Blackstone Private Equity (and investment vehicles sponsored or managed by Blackstone Private Equity) is not necessarily indicative of BXPE's future results, and there can be no assurance that BXPE will achieve comparable results, be able to effectively implement its investment strategy, achieve its investment or asset allocation objectives, be profitable or avoid substantial losses.

No Assurance of Investment Return. Prospective investors should be aware that an investment in BXPE is speculative and involves a high degree of risk. There can be no assurance that BXPE will achieve comparable results, implement its investment strategy, achieve its objectives or avoid substantial losses or that any expected returns will be met (or that the returns will be commensurate with the risks of investing in the type of transactions described herein). The portfolio companies in which BXPE may invest (directly or indirectly) are speculative investments and will be subject to significant business and financial risks. BXPE's performance may be volatile. An investment should only be considered by eligible investors who can afford to lose all or a substantial amount of their investment. A Fund will incur costs which will impact on the investment return throughout the life of such Fund. Fund costs may include, for example: fund management; fund administration and servicing; legal; compliance; record-keeping; certain kinds of distribution charges; and other operating costs. A Fund's fees and expenses may offset or exceed its profits. A more detailed description of relevant fund costs and expenses is included in a Fund's offering documents.

Recent Market Events Risk. Local, regional, or global events such as war (e.g., Russia/Ukraine), acts of terrorism, public health issues like pandemics or epidemics (e.g., COVID-19), recession, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the U.S. and global economies and have a significant impact on the Fund and

its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in the Fund may be increased.

Reliance on Key Management Personnel. The success of BXPE will depend, in large part, upon the skill and expertise of certain Blackstone professionals. In the event of the death, disability or departure of any key Blackstone professionals, the business and the performance of BXPE may be therefore adversely affected. Some Blackstone professionals may have other responsibilities, including senior management responsibilities, throughout Blackstone and, therefore, conflicts are expected to arise in the allocation of such personnel's time (including as a result of such personnel deriving financial benefit from these other activities, including fees and performance-based compensation).

Risk of Capital Loss. BXPE offers no capital protection guarantee. This investment involves a significant risk of capital loss and should only be made if an investor can afford the loss of its entire investment. There are no guarantees or assurances regarding the achievement of investment objectives or performance. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose some or all of your investment. BXPE's fees and expenses may offset or exceed its profits. In considering any investment performance information contained in this document and related materials ("the Materials"), **recipients should bear in mind that past performance is does not predict future returns.**

Risks of Secondary Investing. The funds managed by Strategic Partners (the "SP Funds") expect to invest primarily in third party - sponsored private investment funds ("Underlying Funds") and, indirectly, in investments selected by such unrelated sponsors. The interests in which the SP Funds seek to invest are highly illiquid and typically subject to significant restrictions on transfer, including a requirement for approval of the transfer by the general partner or the investment manager of the Underlying Funds. The SP Funds will not have an active role in the management of the Underlying Funds or their portfolio investments. The overall performance of the SP Funds will depend in large part on the acquisition price paid by the SP Funds for secondary investments and on the structure of the acquisitions. The performance of the SP Funds will be adversely affected in the event the valuations assumed by Strategic Partners in the course of negotiating acquisitions of investments prove to be too high. The activity of identifying and completing attractive secondary investments is highly competitive and involves a high degree of uncertainty.

There can be no assurance that the SP Funds will be able to identify and complete investments which satisfy their rate of return objectives, or that they will be able to invest fully their committed capital. In many cases, the SP Funds expect to have the opportunity to acquire portfolios of Underlying Funds from sellers on an 'all or nothing' basis. It may be more difficult for Strategic Partners to successfully value and close on investments being sold on such basis. In addition, the SP Funds may invest with third parties through joint ventures, structured transactions and similar arrangements. These arrangements may expose the SP Funds to risks associated with counterparties in addition to the risks associated with the Underlying Funds and their managers and portfolio companies.

Sustainability Risks. BXPE may be exposed to an environmental, social or governance event or condition that, if it occurs, could have a material adverse effect, actual or potential, on the value of the investments made by BXPE. Blackstone seeks to identify material sustainability risks as part of its investment process.

Target Allocations. There can be no assurance that the Fund will achieve its objectives or avoid substantial losses. Allocation strategies and targets depend on a variety of factors, including prevailing market conditions and investment availability. There is no guarantee that such strategies and targets will be achieved and any

This material is not to be reproduced or distributed to any other persons (other than professional advisors of the persons receiving this material) and is intended solely for the use of the persons to whom it has been delivered.

The sole purpose of this material is to inform, and it in no way is intended to attract any funds or deposits. Investments mentioned may not be appropriate for all investors. Any product discussed herein may be purchased only after an investor has carefully reviewed BXPE's Prospectus and executed the subscription documents.

Alternative investments often are speculative, typically have higher fees than traditional investments, often include a high degree of risk and are appropriate only for eligible, long-term investors who are willing to forgo liquidity and put capital at risk for an indefinite period of time. They may be highly illiquid and can engage in leverage and other speculative practices that may increase volatility and risk of loss.

This material includes information related to prior investments that the Blackstone PE Platform has made, in which BXPE will not have any interest. Prospective investors should note that the investment programs, objectives, leverage policies and strategies of Blackstone's PE Platform are substantially different from the investment program and objectives of BXPE, despite each strategy

focusing on making private equity investments. The information provided herein regarding the Blackstone PE Platform is, therefore, provided solely for background purposes.

Aggregated Returns. The calculation of combined or composite net IRR/net returns takes the aggregate limited partner cash flows by actual date from inception of the strategy through the current quarter end and uses the terminal value (including unrealized investments) as of the current quarter end to comprise an overall return for the strategy. This calculation is hypothetical in nature. The actual realized returns on the unrealized investments used in this calculation may differ materially from the returns indicated herein. In addition, the actual returns of each Blackstone fund, account or investment vehicle included in such combined or composite returns may be higher or lower than the Aggregated Returns presented. Furthermore, no limited partner has necessarily achieved the combined or composite returns presented in such performance information, because a limited partner's participation in the applicable funds, accounts and/or investment vehicles may have varied. Hypothetical performance has certain inherent risks and limitations. These results do not represent the performance of any single fund, account or portfolio, the investments were not made by a single fund with coordinated objectives, guidelines and restrictions and did not in all cases involve the same Blackstone professionals who will be involved in the management of any such strategy in the future. Such hypothetical performance is not an indication of future results, and no representation is being made that any fund, account or portfolio will or is likely to achieve profits or losses similar to these being shown. Results of an actual portfolio may be materially lower. See "Performance Calculations" below.

Awards, Honors or Other Rankings. Any awards, honors, or other references or rankings referred to herein with respect to Blackstone and / or any investment professional are provided solely for informational purposes and are not intended to be, nor should they be construed as or relied upon as, any indication of future performance or other future activity. Any such awards, honors, or other references or rankings may have been based on subjective criteria and may have been based on a limited universe of participants, and there are other awards, honors, or other references.

Blackstone Proprietary Data. The source of information in this communication is Blackstone proprietary data unless otherwise stated. Certain information and data provided herein is based on Blackstone proprietary knowledge and data. Portfolio companies may provide proprietary market data to Blackstone, including about local market supply and demand conditions, current market rents and operating expenses, capital expenditures, and valuations for multiple assets.

Such proprietary market data is used by Blackstone to evaluate market trends as well as to underwrite potential and existing investments. While Blackstone currently believes that such information is reliable for purposes used herein, it is subject to change, and reflects Blackstone's opinion as to whether the amount, nature and quality of the data is sufficient for the applicable conclusion, and no representations are made as to the accuracy or completeness thereof.

Blended Private Equity Platform Net IRR. Certain strategies and funds that BXPE may ultimately have exposure to are excluded from the calculation of the blended PE Platform net IRR as they are not part of Blackstone's Private Equity segment and/or were predecessor funds prior to a strategies existence at Blackstone. The funds included in the blended PE Platform net IRR are Blackstone's corporate private equity businesses, Tactical Opportunities vintages I-IV (inclusive of Commingled Funds, SMAs, and Co-Invests), Blackstone Growth vintage I, Strategic Partners LBO vintages I-IX, Strategic Partners Real Estate vintages I-VIII, Strategic Partners GPS takes vintage I, Strategic Partners Infrastructure vintages I-III, Clarus vintage IV and Blackstone Life Sciences vintage V and Blackstone Life Sciences Clarus vintage IV and Blackstone Life Sciences vintage V and Blackstone Life Sciences Yield. The blended PE Platform net IRR excludes Clarus vintages I- III, Blackstone's General Partner Stakes vintages I-II, and Blackstone's Late-Stage Private Companies strategy.

The blended PE Platform net IRR was calculated by blending the aggregated net cash flows and unrealized values of the selected funds. Performance information presented includes information from a number of different Blackstone funds whose overall strategy and terms (including fees and expenses) may vary significantly from each other and, potentially, from those of BXPE. The investments were not managed as a single portfolio with coordinated guidelines, objectives and restrictions, and did not involve the same Blackstone professionals who will be involved in the management and operations of any future BXPE investments. Such performance is hypothetical, provided for informational purposes only, and does not represent the actual or estimated performance of BXPE or any other single fund, client or investor. Hypothetical performance has inherent limitations and prospective investors should not rely on any hypothetical performance shown herein.

Case Studies. The selected investment examples, case studies and/or transaction summaries presented or referred to herein may not be representative of all transactions of a given type or of investments generally and are intended to be illustrative of the types of investments that have been made or may be made by BXPE in employing its investment strategies. It should not

be assumed that BXPE will make equally successful or comparable investments in the future. Moreover, the actual investments to be made by BXPE or any other future fund will be made under different market conditions from those investments presented or referenced in the Materials and may differ substantially from the investments presented herein as a result of various factors. Prospective investors should also note that the selected investment examples, case studies and/or transaction summaries presented or referred to herein have involved Blackstone professionals who will be involved with the management and operations of BXPE as well as other Blackstone personnel who will not be involved in the management and operations of BXPE. Certain investment examples described herein may be owned by investment vehicles managed by Blackstone and by certain other third-party equity partners, and in connection therewith Blackstone may own less than a majority of the equity securities of such investment.

Embedded Growth. Embedded growth represents Blackstone's expectations for growth based on its view of the current market environment taking into account rents that are currently below market rates and therefore have the potential to increase. These expectations are based on certain assumptions that may not be correct and on certain variables that may change, are presented for illustrative purposes only and do not constitute forecasts. There can be no assurance that any such results will actually be achieved.

ESG. ESG initiatives described in these Materials related to Blackstone's portfolio, portfolio companies, and investments (collectively, "portfolio companies") are aspirational and not guarantees or promises that all or any such initiatives will be achieved. Statements about ESG initiatives or practices related to portfolio companies do not apply in every instance and depend on factors including, but not limited to, the relevance or implementation status of an ESG initiative to or within the portfolio company; the nature and/or extent of investment in, ownership of or, control or influence exercised by Blackstone with respect to the portfolio company; and other factors as determined by investment teams, corporate groups, asset management teams, portfolio operations teams, companies, investments, and/or businesses on a case-by-case basis. In particular, the ESG initiatives or practices described in these Materials are less applicable to or not implemented at all with respect to Blackstone's public markets investing businesses, specifically, Credit and Insurance, Hedge Fund Solutions (BAAM or BXMA) and Harvest. In addition, Blackstone will not pursue ESG initiatives for every portfolio company. Where Blackstone pursues ESG initiatives for portfolio companies, there is no guarantee that Blackstone will successfully create positive ESG impact while enhancing long-term shareholder value and achieving financial returns.

There can be no assurance that any of the ESG initiatives described in these Materials will exist in the future, will be completed as expected or at all, or will apply to or be implemented uniformly across Blackstone business units or across all portfolio companies within a particular Blackstone business unit. Blackstone may select or reject portfolio companies or investments on the basis of ESG-related investment risks, and this may cause Blackstone's funds and/or portfolio companies to perform differently relative to other sponsors' funds and/or portfolio companies which do not consider ESG factors at all or which evaluate ESG factors in a different manner. The selected investment examples, case studies and/or transaction summaries presented or referred to in these Materials are provided for illustrative purposes only and should not be viewed as representative of the present or future success of ESG initiatives implemented by Blackstone or its portfolio companies or of a given type of ESG initiatives generally. There can be no assurance that Blackstone's investment objectives for any Fund will be achieved or that its investment programs will be successful.

Past performance does not guarantee future results and does not predict future returns. For the purposes of this document, "material" ESG factors are defined as those ESG factors that the firm determines have—or have the potential to have—a material impact on an investment's going-forward ability to create, preserve or erode economic value for that organization and its stakeholders. The word "material" as used herein should not necessarily be equated to or taken as a representation about the "materiality" of such ESG factors under the US federal securities laws, the EU SFDR, or any similar legal or regulatory regime globally. While Blackstone believes ESG factors can enhance long-term value, Blackstone does not pursue an ESG-based investment strategy or limit its investments to those that meet specific ESG criteria or standards, except with respect to products or strategies that are explicitly designated as doing so in their Offering Documents or other applicable governing documents. Any such considerations do not qualify Blackstone's objectives to maximize risk-adjusted returns. Some, or all, of the ESG initiatives described in these materials may not apply to the Fund's investments and none are binding aspects of the management of the assets of the Fund. The Fund does not promote environmental or social characteristics, nor does it have sustainable investments as its objective. Blackstone [Real Estate] may review this position from time to time. A decision to invest should take into account the objectives and characteristics of the Fund as set out in more detail in the Offering Documents, which can be accessed at www.bxpef.com.

Estimates / Targets. Any estimates, targets, forecasts, or similar predictions or returns set forth herein are based on assumptions and assessments made by Blackstone that it considers reasonable under the circumstances as of the

date hereof. They are necessarily speculative, hypothetical, and inherently uncertain in nature, and it can be expected that some or all of the assumptions underlying such estimates, targets, forecasts, or similar predictions or returns contained herein will not materialize and/or that actual events and consequences thereof will vary materially from the assumptions upon which such estimates, targets, forecasts, or similar predictions or returns have been based. Among the assumptions to be made by Blackstone in performing its analysis are (i) the amount and frequency of current income from an investment, (ii) the holding period length, (iii) EBITDA growth and cost savings over time, (iv) the manner and timing of sale, (v) exit multiples reflecting long-term averages for the relevant asset type, (vi) customer growth and other business initiatives, (vii) availability of financing, (viii) potential investment opportunities Blackstone is currently or has recently reviewed and (ix) overall macroeconomic conditions such as GDP growth, unemployment and interest rate levels. Inclusion of estimates, targets, forecasts, or similar predictions or returns herein should not be regarded as a representation or guarantee regarding the reliability, accuracy or completeness of such information, and neither Blackstone nor BXPE is under any obligation to revise such returns after the date provided to reflect the occurrence of future events, even in the event that any or all of the assumptions underlying such returns are later shown to be incorrect. None of Blackstone, BXPE, their affiliates or any of the respective directors, officers, employees, partners, shareholders, advisers and agents of any of the foregoing makes any assurance, representation or warranty as to the accuracy of such assumptions. Investors and clients are cautioned not to place undue reliance on these forward-looking statements. Recipients of the Materials are encouraged to contact Fund representatives to discuss the procedures and methodologies used to make the estimates, targets, forecasts, and/or similar predictions or returns and other information contained herein.

Feeder Fund Structures. A feeder fund will invest all or substantially all its assets in its master fund. A master-feeder fund structure is typically put in place for legal and commercial purposes. In general, investors will hold their interests at the level of the feeder fund and fund costs and expenses of the overall master-feeder structure will ultimately be borne by investors on a pro-rated basis as applicable. For third party, non-Blackstone managed feeder funds investing into a Blackstone master fund, there are likely to be additional costs, fees and expenses that investors in those third-party feeder funds incur from the relevant operator of those third-party feeder funds. Therefore, in some instances, the performance of a feeder fund will differ or be lower, maybe materially, to that of its master fund due to the additional costs, fees and expenses that may have been incurred at the feeder fund level.

The performance shown herein reflects that of direct investors and is net of the respective Fund's management fee, carried interest and other fees and expenses.

Forward-Looking Statements. Certain forward-looking statements, including financial projections and estimates and statements regarding future performance, are inherently uncertain and there may be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. Blackstone undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

Future returns subject to tax. Any future returns will be subject to tax which depends on the personal tax situation of each investor, which may change over time.

Images. The select images of certain investments included in this presentation are owned by existing Blackstone funds, are not held by BXPE, and are provided for illustrative purposes only. There is no guarantee BXPE will make similar investments.

Index Comparison. An investment in BXPE is not a direct investment in a private company, and has material differences from a direct investment in private equity, including those related to fees and expenses, liquidity and tax treatment. The volatility and risk profile of the indices presented is likely to be materially different from that of BXPE including those related to fees and expenses, liquidity, safety, and tax features. In addition, the indices employ different investment guidelines and criteria than BXPE; as a result, the holdings in BXPE may differ significantly from the holdings of the securities that comprise the indices. The indices are not subject to fees or expenses, are meant to illustrate general market performance, and it may not be possible to invest in the indices. The performance of the indices has not been selected to represent an appropriate benchmark to compare to BXPE's performance, but rather is disclosed to allow for comparison of BXPE's performance to that of well-known and widely recognized indices. In the case of equity indices, performance of the indices reflects the reinvestment of dividends. BXPE does not trade on a national securities exchange, and therefore, is generally illiquid. Your ability to have your Shares repurchased through BXPE's share repurchase plan may be limited and fees associated with the sale of these products can be higher than other asset classes. In some cases, periodic distributions may be subsidized by borrowed funds and include a return of investor principal. This is in contrast to the distributions investors receive from large corporate stocks that trade on national exchanges, which are typically derived solely from earnings. Investors typically seek income from distributions over a period of years. Upon liquidation, return of capital may be more or less than the original investment depending on the value of assets.

Leverage; Borrowings Under a Subscription Facility. A Fund

may use leverage, and a Fund may utilize borrowings from Blackstone or under its subscription-based credit facility in advance of or in lieu of receiving investors' capital contributions. The use of leverage or borrowings magnifies investment, market and certain other risks and may be significant. A Fund's performance will be affected by the availability and terms of any leverage as such leverage will enhance returns from investments to the extent such returns exceed the costs of borrowings by such Fund. The leveraged capital structure of such assets will increase their exposure to certain factors such as rising interest rates, downturns in the economy, or deterioration in the financial condition of such assets or industry. In the event an investment cannot generate adequate cash flow to meet its debt service, a Fund may suffer a partial or total loss of capital invested in the investment, which may adversely affect the returns of such Fund. In the case of borrowings used in advance of or in lieu of receiving investors' capital contributions, such use will result in higher or lower reported returns than if investors' capital had been contributed at the inception of an investment because calculations of returns to investors are based on the payment date of investors' capital contributions. In addition, because a Fund will pay all expenses, including interest, associated with the use of leverage or borrowings, investors will indirectly bear such costs.

Logos. The logos presented herein were not selected based on performance of the applicable company or sponsor to which they pertain. Logos were selected to illustrate managers and/or portfolio companies that are indicative representations of the thesis, theme or trend discussed on the slide(s) where they appear. In Blackstone's opinion, the logos selected were generally the most applicable examples of the given thesis, theme or trend discussed on the relevant slide(s). All rights to the trademarks and/or logos presented herein belong to their respective owners and Blackstone's use hereof does not imply an affiliation with, or endorsement by, the owners of these logos.

No Benchmark. BXPE is not managed in reference to any benchmark index.

Operating Metrics. With respect to the operating metrics used herein: [Cash-on-Cash means operating cash flows before certain taxes divided by the total amount of equity invested;] [Stabilized Cap Rate means the expected NOI of the asset adjusted based on marked-to-market rents at some point in the future following successful implementation of the asset management strategies divided by the valuation of the asset at the time of acquisition based on the purchase price]. Expectations reflected in the operating metrics used herein (including, but not limited to, any expectation regarding revenues, expenses, NOI, and/or the successful implementation of an asset management strategy) have been prepared and set out for illustrative purposes only.

Opinions. Opinions expressed reflect the current opinions of BXPE as of the date appearing in the Materials only and are based on BXPE's opinions of the current market environment, which is subject to change. Investors, financial professionals and prospective investors should not rely solely upon the information presented when making an investment decision and should review BXPE Prospectus, as amended and supplemented. Certain information contained in the Materials discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice.

Private Equity. Net returns for Corporate Private Equity funds shown for realized investments and total (realized plus unrealized) investments, from inception of the business in October 1987. Corporate Private Equity funds represent the flagship global funds and flagship sector and region funds; do not include Tactical Opportunities or Strategic Partners funds. These returns are calculated as the internal rate of return of the total contributions and distributions (including fees, drawdown of expenses, return of capital and recouped losses) for all investments.

Realized and Unrealized Returns. Realized or partially realized returns represent both (i) proceeds from investments that are realized and have been disposed of and (ii) realized proceeds from unrealized investments, such as current income, financing proceeds, or partial sale proceeds. The unrealized value is based on a fair market value ascribed by Blackstone, which is verified as being reasonable by a third-party to approximate the cash flow that would have been generated had the asset been disposed of as of the Reporting Date. Actual realized value of the applicable fund's currently unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, legal and contractual restrictions, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions and circumstances on which the current unrealized values are based. Accordingly, the actual realized values of unrealized and partially realized investments may differ materially from the values presented herein. While we currently believe that the assumptions used to arrive at unrealized value are reasonable under the circumstances, there is no guarantee that the conditions on which such assumptions are based will materialize or otherwise be applicable to the investments.

Realized Losses. A realized loss is an investment with a Gross MOIC of less than 1.0x upon realization. Gross MOIC represents total realized and unrealized value divided by invested capital, taking into account purchase discounts, origination and other fees, deferred interest, and other similar items, as applicable. The percentage of realized losses for the funds is calculated as follows: (i) the denominator reflects total invested capital of all funds since inception, including the General Partner and side-by-side commitments and (ii) the numerator reflects realized losses on realized and partially realized investments and excludes potential losses on unrealized investments, in each case, as classified by Blackstone. Such percentage would differ if unrealized losses on unrealized and partially realized investments were included. A single investment may include multiple assets, despite each asset appearing as a separate line item in the applicable fund's financial statements which are reported in accordance with GAAP.

Reserves. As is customary in the industry, BXPE may establish holdbacks or reserves, including for estimated accrued expenses, management fees, administration fees, servicing fees, pending or anticipated liabilities, investments, claims and contingencies relating to BXPE. Estimating the appropriate amount of such reserves is difficult and inadequate or excessive reserves could impair the investments returns to investors. If BXPE's reserves are inadequate and other cash is unavailable, BXPE may be unable to take advantage of attractive investments or protect its existing holdings. In these circumstances the Investment Manager may allocate such opportunities to Other Blackstone Accounts, which, in the case of further investments in existing Portfolio Entities could result in BXPE being subject to dilution and may give rise to other significant risks and conflicts of interest, such as limiting BXPE's available liquidity.

Tactical Opportunities. The "Tac Opps Enterprise" is inclusive of commingled funds, parallel SMAs, co-investments, and all Tac Opps adjacencies, but excludes Blackstone Growth. The "Tac Opps Business" is inclusive of co-investments, commingled funds, SMAs, and certain Tac Opps adjacencies that were formed as part of continuation vehicles for existing investments held in the commingled funds and parallel SMAs but excludes Blackstone Growth.

Tax. Investments mentioned herein may not be suitable for any or all recipients of this material, and potential investors are advised not to make any investment decision unless they have taken independent advice from an appropriately authorized advisor. An investment in BXPE may involve complex tax structures, which may result in delays in the distribution of important tax information and the requirement that investors obtain an extension on their income tax returns. Notwithstanding anything in this material to the contrary, to comply with U.S. Treasury Regulations Section 1.6011-4(b)(3) (i), each investor or prospective investor in BXPE (and any employee, representative or other agent of such investor or prospective investor) may disclose to any and all persons, without limitation of any kind, the U.S. federal, state or local income tax treatment and tax structure of BXPE or any transactions contemplated by this material, it being understood and agreed, for this purpose, (i) the name of, or any other identifying information regarding (A) BXPE or any existing or future investor (or any affiliate thereof) in BXPE, or (B) any investment or transaction entered into by BXPE, (ii) any performance information relating to BXPE or its investments, and (iii) any performance or other information relating to previous funds or investments sponsored by Blackstone, do not constitute such tax treatment or tax structure information.

Third Party Information. Certain information contained in the Materials has been obtained from sources outside Blackstone, which in certain cases have not been updated through the date hereof. While such information is believed to be reliable for purposes used herein, no representations are made as to the accuracy or completeness thereof and none of Blackstone, its funds, nor any of their affiliates takes any responsibility for, and has not independently verified, any such information.

Trends. There can be no assurances that any of the trends described herein will continue or will not reverse. Past events and trends do not imply, predict or guarantee, and are not necessarily indicative of, future events or results.
